A normal child that length and age should weigh at at twenty pounds—probably twenty-five is poor little victim of a drunken, prostice mother and drunken thief father

In response to yesterday's appeal, the following ladies have already sent in large bundles of appropriate clothing for all three of the children: Mrs. M. D. Johnson, Griffin avenue, East Los Angeles; Mrs. Mathewson and Mrs. Pennington, South Fort street, Mrs. Moore, Washington street, and others who request that their names be withheld. A subscription paper is also in circulation to raise funds for the Humane Society, which is, doing such noble work in this and many other cases.

The brutal parents were convicted before Justice Austin yesterday. A report of the trial will be found below.

CONVICTED.

Two Human Monsters for Cruelty to Their Children.

At 10 a.m. yesterday George and Florence Cowles came up before Justice Austin for cruelty to their children. They are a degraded-looking pair. Cowles has as hard and low a face as is easily found in the slums. Their record is utterly vile. Fol-

slums. Their record is utterly vile. Following are the proceedings:
Rev. M. V. Wright, agent of the Humane
Society, testified that he had visited the
Cowles shanty. There are two rooms, of
about \$x:10 feet in size. I never saw such
degradation in my life. When I first saw
the child I did not think it could live over a
few hours. Three or four men slept in the
place, with the woman and her three
children. There was only one bed in the
house, and it had an old mattress and a few
pleces of oll, ragged, dirty clothes on it.
There was not a particle of food in the

d two rooms to Cowles for \$4 a mont[†], hat Cowles had moved his furniture to buse. He thought there was a single sess and a few old thrown-off articles of

clothing.

H. C. Ricketts gave the next testimony.
He has been an inmate of the house for several months past, and looks nearly as fithy as it. When Mrs. Cowles did not cook, clean the house, wash and feed the baby, and do various other things, he aftended to such matters. He could not understand how the child could be neglected with two such capable nurses as himself and Mrs. Cowles. He had called a doctor to see the child cone. The witness and Cowles worked together at clothes cleaning when they could get work. He washed the children's clothes. [The audience smiled and looked curiously at the filthy clothing on both the witness and Cowles.]

The court took a recess at this stage of the proceedings until 3 o'clock p.m.

After the noon recess George Cowles, the husband, was put upon the stand. He testified that the baby had never been named, but they called it Baby Bunting. It had always been sick from its birth. They had taken good care of it always. He always provided food, and made his wife take care of the child.

but they called it Baby Bunting. It had always been sick from its birth. They had taken good care of it always. He always provided food, and made his wife take care of the child.

Mrs. Florence Cowles, the mother, testified: Ricketts lived with us nine months the first time, and has been with us two months this time. The baby has never been well. It is a wonder it isn't dead, being handled by strangers. My husband provided well for us. We both worked hard. The baby was only a skeleton when it was born. I had no milk for it. If these folks had only come to me without making this fuss, I'd have given them the children without any trouble. Yes, I drink, but not every day. I never staggered on the street or went into a saloon. The baby had grub if we didn't. I don't think I've been such a cruel mother. They ought to give me another trial, and I swear to God I'll never take another drink.

The Court: Are you willing to give up

take another drink.

The Court: Are you willing to give up the children to people who will care for them well?

The Court: Are you willing to give up the children to people who will care for them well?

Mrs. Cowles: Yes,
Cowles: Yes,
Cowles: Yes, it's the best way; there's been so much disturbance raised.

Prosecutor Burdett: There is the case, your Honor. Nothing that I could possibly say could add to such a horrible affair.

The Court: This court holds you guilty as charged. You will appear for sentence at 9 p.m. Friday.

The two larger children, Freddie and Lollie, were takem at once to the Orphans' Home, through the kindness of the managers. The Humane Society will pay their board there until it secures guardianship over them, when they will be sent to an excellent home in the country. The depraved father and mother were marched off to the County Jail by Constable Ed Smith. The woman walled in crocodile fashion at parting with "her dear children." Cowles retorted: "If you'd thought a little more of them before, we wouldn't be in this box." Mrs. Cowles thought she shouldn't be put in jail, since she is in a family way; but the lail is a palace compared with the ineffably foul hovel of starvation where she has lived.

THAT BRIDGE.

Councilman Stearns Makes a Written

Statement.
Yesterday's Times noted the fact that there is alleged to be a Senegambian in the Kuhrts-street bridge woodpile. The Ex-press followed with an article bolstering the alleged jobbers. A TIMES representa-tive hunted up Councilman Stearns yesterday and got the following written state-

ment:

Mr. Eaton and his brigade came out in tonight's Express with a statement regarding the bridge controversy that is judicrous to say the least. He says: "Suppose the San Francisco Bridge Company do make 15 per cent. profit on the bridge," etc. In his statement to the honorable Mayor he says only 12½ per cent. profit is to be realized. There is a misstatement.

I do not wish to say anything through the papers which will prejudice his case in the least, but figures will show, and facts to be brought before the committee will tell, which is in the right.

I will admit that Mr. Eaton knows too little about a bridge, but if Mr. Ledbetter got a contract from the city for a bridge he could furnish as good a bridge as could the San Francisco Bridge Company, as he has done for the city already.

But as the Surveyor always draws his specifications, and in such a manner has them adonted as part of the courtered register.

But as the Surveyor always draws his specifications, and in such a manner has them adopted as part of the contract, neither the Council, the Mayor nor any citizen has the right to murmur if the work is only half done, and I object to such work while I am on the Bridge Countries.

THE SANTA FE'S KNORMOUS DEAL NEAR THE RAYMOND.

arly Four Hundred Acres Hought for Right of Way and for Subdi-vision—Where the Main Line Will

For some weeks it has been evident to the knowing that a land deal of great magni-tude was making in the vicinity of The Ray-mond, South Pasadena; but even the knownond, South Pasadena; but even the know-ing were unable to arrive at the true in-wardness of the case. Some amateur jour sensations about the matter, succeeding only in getting wrong on every possible point. Their most brilliant allegation was that the buy was by the Southern Pacific Raliroad Company, to keep the Santa Fépeople from getting a right of way across. A representative of The Times has been camping on the trail of the item from the

camping on the trail of the item from the start; and now that it is at last possible to divulge the truth, presents it herewith.

As every one knows, the Los Angeles and San Gabriel Valley Railroad was bought January 1st by the Atchison, Topeka and Santa Fé, the design being to make it the Santa Fé, the design being to make it the Santa Fé, the design being to make it the Santa Fé, the design being to make it the Santa Fé, the design being to make it the Santa Fé, the design being to make it the Santa Fé, the design being to make it the Santa Fé; smain avenue of entrance to Los Angeles by connecting it with the San Bernardino and Los Angeles Railroad. The road, however, was built as a local road; and to accommodate the demands of the great trunk line it needs some alterations. Those who are familiar with the lay of the land are aware that Pasadena is sincated near the angle of a sharp elbow of the Los Angeles and San Gabriel Valley Railroad. From Raymond station to Pasadena the road is a practically straight shoot; from Pasadena it turns at right angles to its former course and parallels the mountains. Such an elbow on a trunk line, of course, could not be tolerated, and the advantage of a cut-off was evident from the first. The question was to get the right of way, for land all along there is enormously high. By long persistence, however, the task has been accomplished. Land has been bought by degrees, until today the Santa Fe people own nearty 400 acres of land there, and surveyors are today at w **rk laying-out the right of way for the cut-off. The agents of the road—of whom Lester F. Scott, of this city, is chief—have quietly gobbled tota 10 and 11 in block N; lots 9, 10, 11 and 13 in block 0: 5, 6, 7, 8, and 9 in block P. These lots are 10-acre lots, and aggregate over 100 acres. The agents have also purchased 300 acres in J. De Barth Shorb's pasture (the "Wilson place") along San Pascual street, and 70 acres adjoining. The total of the the santa Fé olsk rain in a diagonal line from Raymond Station across

week.

The news above given is absolutely authentic, and will set at rest a great many wild surmises. It is one of the biggest deals in the history of Southern California.

EDITH ELOPES.

A Pretty Copyist's Disappearance from Home and Work.

lady of 17 summers who has been dolar copying in the County Recorder's officer some time past. She is bright, we educated, and has a great many friends the city of the city o this city who will be surprised to learn that the has not been home since last Friday. Her mother lives on Pine street, and is lying in bed dangerously ill on account of her daughter's strange actions. It seems that in bed dangerously ill on account of her daughter's strange actions. It seems that for some time past Miss Edith has been keeping company with the daughter of a Spanish family, who live on the corner of Spring and Seventh streets. A number of her friends were surprised to think that she spent so much of her time with this girl, and when she begun to stay away from home three or four nights a week they became very anxious about her. She has been away from home since last Saturday and her poor mother is almost crazy. She has not been to the Recorder's office this week, and no one knows exactly what she intends ciong. She spends her days in driving about in a livery buggy, and was seen yesterday. As near as could be learned last night she is simply having a good time, but is in a fair way to get on the downward grade unless she mends her ways at once and goes back to her mother. Her friends say the mether, if she lives, will either make her misguided daughter return home, or she will have her placed where she can be controlled. She draws a salary of 400 a month, which would be a great help to her mother, who is very and is able to make her living anywhere.

An Old Lady Lost.

An Old Lady Lost.
Last night Charles Routhard, who lives at
121 Brooklyn avenue, reported at the police
station that he had lost his wife. He and Badly Wanted.

J. E. Ellis, one of Pinkerton's men from Chicago, is here looking after Simon Chris Krebs, who swindled 'Chicago bankers out of \$34,000 by forged checks in 1883 and skipped. There is a large reward out, but Ellis finds that Krebs is not here.

Thievish "Fiends"

A. Walter and the police station that he had lost his wife. He and the old lady, who is 73 years old, were out riding in a street car, and he left her for a few minutes, and she disappeared. He had been to all of their friends houses, but could not find her. Everybody has noticed them riding about the streets on a tricycle. Mr. Routhard was very much excited, and did not know where to go next when he was in-formed that the officers had not seen her.

At a late hour last night she had not been heard from.

Thievish "Fiends."

A. Walker, who lives on First street, near the Times Building, was robbed of a fine gold watch Tuesday night. He suspets two opium "fiends," who were seen hanging about the place early in the evening.

To Be Pitted.

A gentleman who was discharged from the smallpox hospital last night was unable to secure lodgings at any of the hotels or show opium "fiends," who were seen hanging about the place early in the evening.

usually has the smallest attendance, and the enrollment of yesterday shows an appreciation of the university's work which will be pleasant to all friends of education.

During the present year over 200 students have been registered at the various departments. At the end of the ensuing term the first class, which has taken the entire course at the school will be graduated. It numbers eleven ladies and gentiemen. The first day was spent in the enrollment of students and entrance examinations, and regular duties will be resumed today. o

An evening paper almost daily harps on alleged oleomargarine in the restaurants. Capt. J. F. Weston, the genial Chief Com-missary of Subsistence, Department of Ari-Capt. J. P. Westen, and an expert, missary of Subsistence, Department of Arizona, United States Army, and an expert, says as the result of his extensive investigations, that there is no oleomargarine in the market here, and that Los Angeles has "the best butter in the country."

The New Cable.

The New Cable.

The new cable for the Second-street cable road was moved from the depot to the engine-house yesterday, by Master Mechanic E. H. Hutchinson, of the cable road. It was the neatest job of the sort ever done here, former ones having required from one to three days. The cable weighs twelve tons, and was moved in two and one-half

ours. The motive power was twelve owerful horses of the Atlantic and Pacifi rransfer Company. The new cable is now endy to be stretched whenever the presen-ne shows signs of wearing out.

A BIG SUIT.

The Garniers Want \$120,000 for Burned Pasturage.
Suit was commenced in the Superior Court yesterday by Camille Garnier and Leon Garnier, against George K. Porter, to recover damages in the sum of \$120,000. The complaint sets forth that the plaintiffs are the lessees of the "Rancho El Encino," and that, "on the 14th of November, 1886, while plaintiffs were in possession of said leased premises, the defendant willfully and negligently kindled a fire on his land in the vigently kindled a fire on his land in the vi-cinity of plaintiff's, and so negligently watched and tended the said fire that it

watched and tended the said fire that it spread over the intervening space and came to and spread over the plaintiff's land, and consumed the hay, grass and pasture on 2848 acres, a little more or less, of the said land, of the value of \$120,000."

The complaint further alleges that plaintiffs were at the time named in possession of a large band of sheep, and were dependent upon the leased premises for the maintenance of their flocks; being unable to obtain pasturage elsewhere, they lost 2000 head of these sheep and lambs, valued at \$12,000, and there is great danger of further loss. Plaintiffs claim that they have been damaged in the aggregate sum of \$40,000, and, by reason of the provisions of section 3344 of the Political Code, they are entitled to judgment for treble that amount, for which they sue.

health Officer Hagan discovered that they had the smallpox. The two children were removed to the hospital, and Fanta was taken with them. The house was thoroughly fumigated.

There were no new cases yesterday. There have been no more deaths, nine being the total. Even Mr. Pullian is miraculously recovering, though his mind wanders.

W. R. Burke will file with the Clerk of Council today his application for a franchise to build a street railroad out Vermont avenue, from Washington street to Park station. He is largely interested out that way, and is amply backed to build the road, for which hundreds of people are suffering. He raised, personally, a subscription of \$7000 to put the two-horse road out there; but as that company appears to have given up all intention of building, he takes the field himself. The road will pay from the start.

She Tells Her Bide of the Narrative.

A Trues reporter called on Mrs. 8. Bisazza, the supposed wife of the keeper of the Chicago restaurant, at 129 Hill street. The lady was very much put out about the statement made by Bisazza, and published in yesterday's issue of this paper. She talked two hours as only a woman can talk, and said, in substance, that she and Bisazza were married in San Francisco, on the 50th of October, 1885. She was keeping a boarding-house at 1050 Market street, at that time, and her husband was a cook in a restaurant. He roomed in her house and fell in love with her, and persuaded her to marry him. She sold out her house about that time, with the intention of putting her daughter to school. Bis12za talked her into letting him have money enough to start a restaurant. He could not find a sultable location in the city, and after travelling around the country awhile he selected a place at San Rafael, and she drew \$600 out of the bank and they opened a nice restaurant. Her husband did not do well in San Rafael, and in a very short time the place was in the hands of the Sheriff to satisfy creditors. They returned to San Francisco, and Bisazza made two other attempts to get a start, and was compelled to fly from their creditors at 3 o'clock in the morning on two different occasions. The last time he lit out for Fresno and moved his stuff down to that city and wrote to his wife that he was doing well. He did not send for her, however, but she made up her mind that she would go to him, and she did. For a while they got along in a kind of way, but Bisazza got dissatisfied and sold out one day without her knowledge, and left for Los Angeles before she knew that anything was in the wind. She did not know where her husband had gone to, so she picked up and returned to San Francisco. She had not been there long when she learned that her roaming lord and master was in this city. She at once borrowed money enough to pay her fare down here, and she found him in the Chicago restaurant. Her reception was ver

Queen's Jubileo A Decision Arrived at by Englishmen.

LEN ROSA," PASADENA, April 6.—
the Editor of THE THEES.] I learn rief and indignation that a proposal to the names of well-known Los Angeles, engaged in philanthropic work, has retoed by that self-appointed committenglishmen who propose to celebrate man's jubilee. By a vote of six to four range resolution was arrived at. Some reasons given I had rather ignore for edit of my own countrymen. I am ure that if it had been a committee of idean men such a resolution would been impossible. I would suggest that an men such a resolution would een impossible. I would suggest that or committee be appointed composed in and women, with some definite thropic object in view, that will be of g benefit to the sex represented by the and not for the selfish gratification, and not for the selfish gratification. gueen, and not for the selfash gratification which a few hours' amusement at a ball would afford. One beautiful work might be to endeavor to relieve the overworked and underpaid women in the Queen's own country, and at the same time relieve the pressure for household help in California, and especially in Los Angeles country. There are thousands of educated women in Britain, skilled in household work, who work for a bare maintenance, that would be glad to come to this country but for the cost of transit. They would be an unspeakable blessing here, where Chinese labor has to be resorted to, with all its disadvantages of language and habits. I would suggest that a fund be established to pay their passage, and a committee appointed in both countries to carry out so desirable an object. I am, sir, faithfully yours,

MARGARET E. PARKER.

P. S. I think it only just to one of the minority to state that on the decision being arrived at he said to the chair: "It is an insult to the Queen and her sex."

Seventh-street Cable Road. Angeles, April 6.—[To the Edito Los Angeles, April 6.—[To the Editor of The Times.] I see that in the application of J. F. Crank for a franchise for a cable street-car line out West Seventh street to Westlake Park he proposes to pay the city \$10,000 for said franchise. Now, as there may be some doubt in the minds of our Councilmen as to the advisability of accepting this money, such requirements not having been before made for such franchises. I would like to suggest that the Council grant said franchise, as it will assist to develop a large area of some of the most beautiful portion of our city, and accept the \$10,000 and use it to improve the park.

Park improvements should not be longer neglected by our city.

The work of furnishing places of resort and attraction for the thousands of strangers visiting us, whom we should please, must be attended to, or our wide-awake neighbors will get more than their share of them. In offering this beautiful town, we have made prices that are sure to advance 50 to 100 per cent. inside of

vance 50 to 100 per cent. inside of thirty days.

Claremont is like the "City set upon the hills; it cannot be hid." It overlooks one of the most picturesque and charming landscapes in the world. The Sierra Madre Mountains are its background. Nowhere are the peaks more lofty or the scenery grander. The soil is exceedingly fertile, the water marvelously clear, pure and near the surface. Artesian wells pouring forth their liquid wealth will furnish what is valued more highly than gold or silver.

Giant live oaks scattered over the slope exceed in beauty the famed Eng-lish parks. Fruitful orchards of apricots, peaches, prunes, oranges, lemons and plives cover miles of the adjacent country. The whole picture is a scene of loveliness unsurpassed in California. Claremont will be only one hour's ide from Los Angeles. The great Santa Fe Railroad is deeply inter in its welfare, and it is believed that Claremont will be the great fruit-packing and shipping depot of this fertile region, embracing thousands of fertile region, emoracing theusands of acres of the finest fruit land on earth. The tract is subdivided most liber-ally, the majority of the lots being 50 feet front and 150 to 180 feet deep; the

onsiness lots 25 by 170. The streets are graded. A first-clas depot will be erected at once. The track-layers are already at Claremont. In a few days the great overland trains of the Santa Fe route will pass to and

The sale of lots will begin on Thurs day, the 7th of April, by W. H. Hola-bird, in the office of the Pacific Land Improvement Company in Claremont Pomona is the nearest railroad station on the S. P. R. R.

Terms of sale—One-third cash, balance in six and twelve months, with interest at 8 per cent. A discount of 20 per cent. will be made from the schedule of prices, with 5 per cent. additional discount for all cash. We reserve the right to withdraw this discount at any time after Thursday, April 7th, and will positively withdraw

Considering the charming location, fine depot to be built immediately, a ss hotel (plans for which are now being made), and an abundant supply of pure artesian water, our prices for lots make a purchase an investment of great promise. Price will advance 25 per cent. May 1st.

The railroad is one of the surest and most active agents of civilization. It is the highway of empire. Along its lines, with a steady and thunderous tread, moves the advancing phalanx of State-builders. All along its path, like scattered seeds, new homes spring up, and better wastes are transformed. and barren wastes are transform into habitable gardens. The era of the ox team and the caravan was past when civilization, like a sluggish stream, crossed the continent to settle on this far-western frontier in the then unpeo pled wilderness of California and other Pacific States. A single day in this new era of steam brings to these shore more people than traversed the continent in a year's time in the old days. The exodus from the older States of the Union is widespread. Distance has virtually been annihilated, and California keeps step today with the world'

One of the most significant facts in the history of Southern California today is the rapidity with which her lines of railway are being multiplied. And for Los Angeles there is significance in the fact that, as of old all roads led to Rome, so the new roads that are being constructed in this section of the State

nearly all lead to Los Angeles.

These facts point strongly to the metropolitan preëminence of Los Angeles in the near future, and to the rapid filling up of all this southern portion of the State.

The growth of Los Angeles within the past few years has been phenomenal. But not less so has been that of the whole county. It is hardly possible for the average citizen to keep track of the new towns and settlements that are springing up everywhere throughout the outlying country. And these towns and settlements are by no means like the rude pioneer towns of the great West. Their beginning is complete as far as it goes. The homes are not of the log-cabin order, nor of the dry-goods-box design. They have architectural beauty and finish. They have the characteristics of wealth and cultivated taste. They proclaim that the country is filling up with a population of well-to-do people; that life here is no longer an experi-

ment, but a success A good many of these newcomers are capitalists. Charmed with the climate of Southern California, they are not particularly desirous, all of them, of dwelling in cities. They like the suburbs, with their orange orchards and vineyards. The different lines of railway make the city accessible enough for all practical purposes. They bring the country into close communication with its pleasures and its traffic, its schools and churches; and so where, a few years ago, was the solitary ranch house, are now clustering villages and legant suburban homes.

It will not be many years before it will be difficult to determine where is the line of separation between Los Angeles and Pasadena. Rapid growth is characteristic of the pleasant country all along the line of this local road Not here and there a home, but young towns that bid fair in a few years to put on metropolitan ways, and enhance materially the magnificent prosperity of this inviting section.

Not less apparent is the development in other directions. All along the iron roads extending north, south, east and west is the face of the country changing, and the solitary places becoming inhabited. Stations and towns are but a few miles apart. The price of lands s advanced, and the fever of develop ment is throbbing everywhere. The mountains are being tunneled for water, and wide tracts, hitherto dry and barren, are not only peopled, but are fruitful and productive. Energy activity are pulsing through the land. The spirit of enterprise is everywhere, and underlying it is an undoubting faith in the future of Southern California.

It will not be many years before all the country lying between Los Angeles and the sea will be fully settled. The iron lines extending from the city to the coast will constantly feed this it does through our most inviting borders, will be the means of scattering thousands of new homes over those pleasant plains and hills. All those mesa heights offer the finest sites for elegant suburban homes. Encircled by distant hills and mountains, with the sea lying like a silver plain to the south and westward, with a broad sweep of valley land between, they beckon to the home-seeker, and offer attractions that can nowhere be surpassed.

Our cable roads open up also a vas mount of territory in the vicinity of Los Angeles, that without them would have long remained unoccupied. These lands, beautiful for situation, offer most attractive locations for elegant villas and homes of wealth. Los Angeles is bound to extend her To many self along their lines. this section will be exceptionally attractive, it being elevated, and affording extended views, and swept by cool sea-breezes, the air is pure and the temperature cooler than on the lower land. Doubtless here the handsomest portions of the future Los Angeles will be built. The electric road Vilas appears to want to get rid of these hills, while the terminus tion of these hills, while the terminus

emoved, the disgrace will not be upon im, but upon his narrow-brained and stretch their network over the land, bound partisan "superior officer." traversing fresh territory, Southern

improve.

And of all this prosperous advancement Los Angeles will continue to be the center and the heart. She is public-spirited and she is wealthy; she occupies a commercial vantage-ground, and has many resources, and she will suffer nothing to retard her progress. She is destined to become a great metropolis in which the whole State may well take pride.

So it is called; and yet it is not really a boom, unless a "steady thing" can be called a boom. It has been going on now for a long time in Los Angeles, and every appearance indicates that it has come to stay.

Notable sales are numerous; in-stances of fabulous profits made are frequent and well established. We name a few only, taking the cases at

Not many months since a Minneap is man, visiting Los Angeles with a sick wife, cleared \$15,000 by a little operation on Angelefic Heights. The lot northeast corner of Temple

and Fort streets has risen in value from \$8000 to \$18,000 in less than a year. The ground at the southwest corne

of First and Fort streets, upon which there is soon to be erected a magnificent five-story business building, is worth today not less than \$650 per front foot. One year ago it could have been bought for less than \$600 per front

A lot near Fort and Fifth streets, recently bought for \$9000, was sold the other day for \$15,000.

Among the notable transfers on April 5th are: Four lots in the Huber tract. \$14,000; two lots in the Lick tract \$11,950; two lots in the San Pascual tract, \$1650; one lot in the Aliso tract, \$4000; 21 acres in Ball & Painter's addition to Pasadena, \$8000, being nearly \$400 per acre; another subdivision of the San Pascual rancho, being what is known as "the 100-foot avenue, California tract," \$9500; 24 acres in township 2, \$6000, or \$250 per acre; one lot in the Dr. Congar tract, Pasadena, \$4250; one lot in the Los Angeles Improvement Company's subdivision, west of the city, bought by Hon. Don Cameron, \$2700; part of the Mullaly tract, west of Bichmond avenue and Mission road, \$15,000; a farm lot in the American Colony tract, Cerritos rancho (seaward), \$1400; one lot in Santa Monica, \$2250; farm lot in Williams's Home tract, Pasadena, \$13,000. These transfers show profits ranging from 20 to 200 per cent. on properties which the owners have, in most instances, held but a few years, in some instances but a few

Among yesterday's transfers we note Part of a tract in the Rancho Santiago de Santa Ana, \$10,000; a lot in the addition tract, \$4000; a lot in the Berry & Elliott tract, Pasadena, \$11,500; a lot in the Smith tract, Pasadena, \$4250; a lot on Buena Vista street, city, \$8000; and thirty acres at Lamanda Park, \$25,000. These transfers, like those noted above, show striking advances in prices, when compared with the values of the same properties but a short time

Pasadena is the premier boomer in land "deals." "Quick sales and large profits" is the motto in that rushing young city. Lots which at no distant period in the past were bought for \$400 each have recently been soli for \$4000 each—a slight advance of enfold. We have had a authenticated instance reported to us where the wife of an able editor invested \$600 in that bailiwick, and Crop Prospects in Many Places Imsum she invested again, and for her last purchase she has been offered \$20,000. The able editor himself took a turn at the real-estate wheel of fortune, and upon a very small investment (only \$100 of which was cash) he realized \$4000and it was not considered a conspicu ously good day for making money,

either.

The most notable recent big purchase, however, was consummated yes-terday, after considerable connubiating, and is fully recorded elsewhere in THE TIMES. It was a tract rather les than 400 acres in area, lying between Raymond Station and Chapman's place beyond Lamanda Park, bought for the Atchison road, for the purpose of enabling that company to straighten its line at that point. The purchase price was somewhere between \$600,000 and \$700,000. It is evident that the Atchison people believe in Los Angeles and Southern California with a firm and unshakable belief.

AMUSEMENTS.

GRAND OPERA HOUSE.—The Carleton Opera Company gave their last presentation of Nanon at the matinée yesterday and in the evening Erminie was repeated to the complete satisfaction of a well-filled house. Mr. Carleton's hold upon the amusement lovers of our city is amply demonstrated be their warm reception upon this, his returned

visit. Tenight The Mikado will occupy the boards with the new scenery painted in San Francisco and shown here for the first time. Fannie Rice as "Yun-Yum." the inimitable "Ko-Ko" of Drew, the "Katisha" of Clara Wisdom and last, but not least, the "Mikado" of Carleton will, in addition to the other attractions of the cast, draw a crowded house. The Mikado as given by the Carleton Company enjoys the well-deserved reputation of being the best presentation of Sullivan's ever-popular opera that has been given in this country.

SACRAMENTO, April 6.—[By the Associated Press.] The following dispatch was received by the Bee from Washington today: "Hon. William A. Sparks, Commissioner of the General Land Office, has received from C. F. Gardner, Receiver of Public Moneys at Sacramento, a report, accorpanied by numberless exhibits in the form of copies of documents and letters, the whole tending to prove that Selden Hetzel, Register of the Land Office at Sacramento, has been guilty of most grave malfeasance in office, neglecting his duties to the injury of land claimants, and misappropriating money deposited with him by such claimants."

An investigation here tends to corroborate the above. The amount said to be misap-

the above. The amount said to be misap propriated will probably amount to thou sands of dollars. Hetzel has been in office only since October last.

THE STATE MINERAL CABINET ROBBED.
SACRAMENTO, April 6.—The mineral trustees recently appointed by Gov. Bartlett, after organizing today, visited the cabinet, and found that many of the most valuable specimens are missing. The specimens in the cabinet originally cost the State \$50,000, and it is believed that the thefts will amount to thousands of dotars. The loss will be investigated.

A STAGE UPSET.

Rought Experience of a Theatrical Troupe on Sisktyou Mountain. Yneka, April 6.—At daylight, 300 yards south of the summit of Sigkiyou Mountain, a four-horse livery team from Ashland, with Stutt's theatmeal troupe of fifteen persons, ran away, the stage upsetting and throwing all over the grade. The driver, Jasper Cunningham, has been unconscious since the accident and is supposed to be fatally injured. Two ladies and a little girl were

nectuent and is supposed to be fatally injured. Two ladies and a little girl were badly hurt and others slightly. It is not known what frightened the horses.

YREKA, April 6.—The latest from the accident on Sisklyou Mountain, this morning reports Jasper Cunningham, driver of the stage, dangerously injured internally. Juliet Hazel, head badly cut: Mrs. Lecomte, collar-bone fractured, and Jvy Statts, the little girl who was thrown out before the stage capsized, badly cut. The accident was caused by the breaking of the brake. The wounded are comfortably cared for in the old railroad house near the sumit. All of the company were more or less injured.

outhern Pacific to Build a Road from Santa Rosa to Carquinez

-A New Passenger Ticket

-Notes.

By Telegraph to The Times.

Santa Rosa, April 6.—[By the Associated Press.] William Hood, chief engineer of the Southern Pacific Company, with assistants, arrived here this morning on business connected with the Santa Rosa and Carquinez road. They were met by Col. M. L. McDonald and County Surveyor Davis and driven over town to view a number of locations suitable for a depot. Mr. Hood says his company is ready to commence work when the subscribers will transfer their subscriptions. The people very much favor this company, and the subscribers are willing to transfer the amounts if they can avoid liability from the other company. It is thought that the road will be built by the Southern Pacific.

SOUTHERN PACIFIC'S NEW TICKET.

SOUTHERN PACIFIC'S NEW TICKET. SAN FRANCISCO, April 6.—The Southern Pacific Railroad Company has issued a new ticket which they have placed on sale in the offices of the Atlantic and Pacific. It enaoffices of the Atlantic and Pacific. It enables purchasers to go from San Francisco to Los Angeles and thence to any point east along the line of the Atlantic and Pacific. This is a great accommodation for all Atlantic and Pacific passengers, who litherto have been compelled to turn off the Southern Pacific's main route at Mojave, whereas they can now proceed to Los Angeles and stay there as long as they please and resume their jounroey by way of Colton and San Bernardino to Barstow, and thence by way of Albuquerque to Chicago or any other point.

A RESULT OF HIGH PREIGHTS.

One of the results of the enforcement of the Interstate Commerce Bill is shown in the following circular, which has been sent to the principal retail business houses of this city by the wholesale merchants: "Owing to the enormous advance in freight on all goods which we handle, it becomes necessary for us to advance our prices, and to withdraw any quotations which we have made you heretofore."

THE EASTERN RAILWAY WAR. A RESULT OF HIGH PREIGHTS.

THE EASTERN RAILWAY WAR. DENVER (Colo.), April 6.—The war between the eastern and western lines has reached Denver. The Denver and kid reached Denver. The Denver and kio Grande Company issued orders today to their agents in Colorado, New Mexico, Utah and California to withdraw from sale all tickets reading over any portion of the Pennsylvania system, the New York Central and Hudson River, the West Shore and the New York, Lake Erie and Western railroads. This is in retailation for the action of these lines for decilining to sell tickets over the Denver and Rio Grande because the latter refused to entertain an agreement not to pay commission.

HEAVY FAILURE.

An Old Philadelphia Firm in Finan-PHILADELPHIA, April 6.—1By the Associated Press. The failure of Henry Bower & Son, manufacturing chemists, was made public today through the entry in the Common Pleas Court of judgment notes amounting to \$57,794, all of which were confessed. The heaviest one of these was entered by William H. Newbold's Son & Co. for \$50,000. The firm of Henry Bower & Son was one of the oldest in their Bower & Son was one of the oldest in their line, having been founded in 1851, and have always been considered the most reliable and strongest house in the city. Their lia-bilities probably amount to \$500,000, but no estimate of their assets can be obtained. The reason assigned for failure is that the senios.member of the firm has large amounts of money tied up in real estate and there was not enough cash capital to carry on the business.

Chicago, April 6.—[By the Associated Press.] Commenting on the result of yesterday's election the Times (Independent Democrat) says: "The people of Chicago have given their answer in no uncertain tones to the brazen demand of the Haymarket banditti for the surrender of the municipal government into their blood-stamed hands. The candidate of the redding barbarians for the mayoralty has been defeated by a majority approximating 28,000, and his associates on the city and town ticket have suffered a like righteous fate. The result is a magnificeant triumph for the intelligence and conscience of Chicago. It is a splendid vindication of the patriotism, common sense and sturdy manhood of the great masses of the people. It is a crushing rebuke to demagogues and tricksters of the Carter Harrison type, who, to promote their unhallowed ambition for power, have been dallying with the lawless element and trifling with the safety, property and good name of this community."

RHODE ISLAND IN DOUBT.

PROVIDENCE (R. I.), April 7.—As far as can be ascertained at this hour, 12:30 a.m., the House stands 27 Republicans and 20 Democrats; the Senate 18 Republicans and 10 Democrats, with four cities or towns to be heard from.

PROVIDENCE (R. I.), April 7.—The city of Providence returns have not yet all come in and the election hangs in the balance. Wetmore heads Davis slightly, but this city has gone strong for the Democratic candidate and will probably give him a majority. It is now thought that the entire Democratic ticket has been a very large one, and everybody that could cast a ballot has done so. The vote on Attorney-General is practically the same as on Governor. So far as returns are at hand the woman suffrare amendment was defeated badly. Davis's majority in the State tilket.

On account of the owner's ill-health, a beautiful tract of 60 acres is offered for sale in one lot. This tract has a perfect title, is already subdivided into residence lots, with the streets graded and lined with trees. The location is high, on the mesa, and is in the middle of a promising locality, four miles west of Spring street. If applied for soon the tract will be sold at such low figures as to guarantee to the investor a profit of from \$55,000 to \$40,000 in a few months.

A good team, with a three-seated and covered wagon, together with office furniture, will be sold with it if desired.

Apply directly to the owner at ROOM 1. above the old postofice building, \$% SPRING STREET, or address P. O. BOX 16.

Pear trees have blossomed so late this year they will without doubt escape

the blighting frost of last season. A heavy yield can be anticipated.

A subscription paper is in circulation asking contributions to a fund to be expended in maintaining a watering cart for sprinkling the streets during summer. Signatures are easily obtained. Another indication of Alhambra's metropolitan proclivities.

H. W. Stanton and George Lewman are excavating on Garfield avenue, near Main street, for the foundation of a two-story building, in which it is their intention to carry on a feed and grain business.

intention to carry on a feed and grain business.

Eli Messenger is erecting a handsome residence to cost \$2000 on his highly-improved home-place on Wilson avenue. Our nurserymen are busily occupied in shipping orange and lemon trees, trying hard to catch up with their many orders. At the end of the season there will not be a budded or seedling tree left in nursery stock, so eager is the devand for our production, Alhambra soil being peculiarly adapted to the growing of citrus trees from the seed.

Mr. M. Goff, who intends opening a bank under the hotel, has been seriously ill in Chicago, whither he went to bring his family to California in February. His many friends here are pleased to hear of his convalescence and early intended return among us.

of his convalescence and early intended return among us.

J. De Barth Shorb and F. Q. Storey are together on a trip to Arizona. Their protracted stay will assure them abundant opportunity to talk political economy to the Pimas and Maricopas, as also to prospect corner lots among the tertiary gravels and conglomerates of the sun-kissed land.

The auction sale of the Buell and Gottschalk tract, on Monday, was largely attended. The wise man purchased first-class property at wisdom prices, while the hungry man placed himself outside of the tempting lunch. Every one appeared content, except, perhaps, the genial auct oneer, who seemed a bit down-hearted at his inability to persuade the ladies present that he would not be angry if they winked a bid at him.

RECEPTION TO MISSIONARIES UNIVERSITY PLACE, April 5.—[Correspondence of THE TIMES.] Rev. B. F. Cherington handed your correspondent the inclosed paper:

ent the inclosed paper:

"At the home of Rev. Mr. Chapin a reception was given to Rev. Mr. Corbitt and family now en route for China. The following representatives of different mission fields were present: Rev. Mr. Nellin, of Natal, Africa; Rev. Condit and wife, of South China; Rev. Chapin and family, of North China; Miss Guelich and Miss Gardner and Mr. Guelich, of Japan; Rev. Cherington and wife, of India. Also the Chinese pastor of the local Chinese church in the city, and also the lady and gentleman in charge of the local Spanish work, whose names we cannot now recall."

Presiding Elder Farnsworth is packing up to move to San Fernando, hoping the mountain air will help to invigorate his lungs and restore him to health. He is regarded by those posted in his work as a model of administrative skill, His speedy restoration is greatly desired and fervently prayed for by ministers and people of his district.

Improvements are going on in every

Improvements are going on in every direction. Grading streets, ornamenting college grounds, projecting new building and completing those already begun. This place continues to attract strangers, so that the old residents scarcely keep track of their neighbors. It is the purpose of the people to make this locality a "joy forever." It is a rare thing for any one who locates here to remove to any other place, unless circumstances peculiar lead them to it. One case, we regret to record, is that "f Mr. Snyder, a mile or two south of the village, who will soon take up his [JESSONS IN SPANISH. well.

A Mr. Thayer and wife, a capitalist a Chicago, has been the guest for a week past of Mrs. Lay. Mr. T. is nearly wild over the attractions of Southern California, and will scarcely let the "grass grow under his feet" till he comes back from that big village on the lake, where they have winter a good share of the year round, to take up his abode where "December's as pleasant May." He has made several purchases already, and we think he has more than faint visions of other investments. A man of rare sense is this citizen of that big town in the "Sucker State."

Dr. Sinsibaugh and wife, who returned from their trip two or three days 25go, are looking so happy that we believe they are in this frame from their good fortune in having safely arrived at their pleasant home in this summer land.

The land is level as a floor, situated near the end of Stevenson avenue, which will soon be the most imposing street in the city, and upon which responsible parties are now under bonds to construct a STREET RAILROAD within a short time. The purest soft water may be had at depth of 30 feet, and arrangements are being perfected for an abundant supply of pure mountain water to be piped to the tract.

It is the intention of the trustees to open the College for the reception of students next fall with the ablest faculty in the State; and the moment its halls are open for instruction the value of these lots will increase five-fold. MISTER MURPHY.

AN ACCOMPLISHED CONFIDENCE MAN AND FORGER.

He Swindles P. Ballade and Numer ous Others by Means of Forged Checks-Into Jail and Out Again -Always on the Move

Murphy, alias F. King, alias a dozen er fancy names, is one of the boldes didence men on this coast. If his rascally other fancy names, is one of the boldest confidence men on this coast. If his rascally doings in this section of the State were written up they would cover several pages of a newspaper. Murphy came here from Santa Clara county some six months ago, and since then his criminal career has been one not to be sneezed at by the oldest crook in the United States. He is a very smooth worker, and during the past six months he has given the officers more trouble than all the other criminals in Southern California. When Murphy first slid into Los Angeles he lost no time in making the acquaintance of some of the best people in the town. He visited Newmark & Co., and in some unaccountable manner succeeded in getting their book-keeper to draw him a check for \$56. Murphy signed it and visited Mr. Parker, who keeps a wholesale liquor house on the corner of Commercial and Alameda streets. The fellow was introduced to Mr. Parker by a well-known merchant, to whom he introduced himself as F. Murphy, a relative of the Murphy family at Santa Clara, and stated that he was about to take charge of some horses down here for ex-Senator B. D. Murphy, whom he represented as his cousin and bosom friend. After he had talked with Mr. Parker a few minutes he pulled out the check and sked to leave it in his safe, as he was afraid he would lose it running around town. The next day he came back and borrowed \$12 on the check, as he did not care to cash the check that day. On the following day he returned and bought 50 cents' worth of cigars, and told Parker to charge it on the check, This kind of business caused Parker to investigate the man, and on sending the check down to the bank he was not at all surprised to learn that Murphy was a rich man only in his mind. The fellow as captured, tried, convicted, and sentenced to six months, all of which was published in Tur. Tures at the time of the occurrence. Murphy was released a few weeks ago, and lost no time in making himself scarce about the County Jail, but, contrary to the rules adopted by the m oings in this section of the State wer

\$12.50.
"It is too late to go to the bank, and I have to go out in the country where I am working," said the oily rascal, "and I have got to make some other purchases, so if you will cash this I will return in a few

will eash this I will return in a few minutes."

Mr. Ballade paid his \$12.50, withholding 75 cents for the overalls, which were rolled up and placed to one side for the man with so many names. Up to yesterday afternoon Mr Ballade still had the overalls in his possession, but it is useless to state that he has given up all hopes of ever seeing King allas Murphy again, unless the scamp is captured by the officers, who are on his track. In conversation with a Times reporter, Mr. Ballade said:

"I don't mind the loss of the money so much, but it is the smooth way he got the money out of me. I have met a great many sharpers but he is ahead of anything I ever saw. I didn't pay very much attention to him, but my clerk here will be able to identify him if he is ever caught. Yes, the order was a forgery. I have placed the matter in the hands of the police, and I am in hopes they will catch him."

police, and I am in hopes they will catch him."

It was learned on further invest cation that Mr. Ballade is not the only victim to King's sharp practice since he got out of jail. As soon as he got his forged check at Mr. Ballade's he skipped out to Compton, and at least one merchant fell a victim to his \$12.50 check racket. Pomona has not escaped, as the fellow has been among the merchants of that city, and his success was something wonderful. His last victim was Postmaster Clark, of Florence. Mr. Clark is a kind-hearted gentleman, who cannot refuse to lend assistance to any one who is in a tight place, and when King offered him a check for \$20, he handed over the money and thought nothing more of it until he was informed that the check was a forgery. As was said before, the fellow is a bold operator, and there is no telling how many victims he has scattered about the country, as the officers are hearing from him every few days. Up to last night his wherevery few days. Up to last night his wi

The California Co-operative Colony on Its Legs.

The California Cooperative Colony, long in embryo, is at last ready to be born. The necessary papers are signed by all but one erson, whose "John Hancock" will be person, whose "John Hancock" will be affixed this morning, securing the 7000 acres of the Bixbys' Cerritos ranch selected for a colony site. The programme of the colony will be practically as follows, though some figures here given may be somewhat

figures here given may be somewhat changed:

The face value of shares—of which each stockholder can hold but one—is \$1000. It is proposed to sell shares to the first 200 subscribers at \$140 a share. Each share gives the holder two large lots in the townsite, making about half an acre. Whatever land he may wish to buy outside the townsite will be sold him—if he is one of the first 200—at about \$50 per acre. No one stockholder can have more than forty acres; though if he has a wife and she has a share, they can get eighty acres in a body. The third hundred subscribers will have to pay about \$175 for a share and about \$60 per acre for land. The fourth hundred, about \$200 per share and \$80 per acre. A day will be set on which shareholders can repair to the spot and select their land—first come, first served. There is already a considerable rush for stock. For acre property the purchaser can pay cash, or one-third down, balance in one and two years, with interest. If a man wants to secure his land—which in this case must be not less than forty acres—the Bixbys have agreed to release his land from the colony purchase and give him an out-and-out deed, after the colony has made the first payment (\$93,000) on the tract. Outsiders can buy lands of the colony in any quantity, but the above rates will not rule. Excursions will soon be run to the colony-site. Property in the vicinity is already jumping.
